Journal Of The Steamship

BILL OF FACTS

Historical Society Of America

INDEX, VOLUME IX

BARRINGTON, RHODE ISLAND

MARCH - DECEMBER, 1952

This index covers Volume IX of STEAMBOAT BILL OF FACTS — or all issues of 1952. Page numbering of the issues for 1952 is:

Date of issue	Serial No.	Volume	Pages
March 1952	41	IX	1-- 28
June 1952	42	IX	29 - 52
September 1952	43	IX	53 - 76
December 1952	44	IX	77 - 100

The index comprises three lists: SUBJECTS & TITLES, AUTHORS, and VESSELS. The last, by far the longest, will however be the quickest means of locating information on a specific vessel whose name is known. For more general references, SUBJECT & TITLES will be useful. Entries include cross-reference to principal bodies of water, and steamship companies. The AUTHORS list covers only author of STEAMBOAT BILL articles, and editors of regular sections. It does not include authors of books reviewed.

Many thanks to New York Chapter members Adams Bailey, Robert Kemp and Leslie Oursler, who compiled this index; and to Alice S. Wilson for typing and other assistance.

This index is distributed free to SSHSA members. Price to others, \$1.00 postpaid. Order from SSHSA Secretary: Edwin A. Patt, 53 Annawamscutt Road, West Barrington, Rhode Island.

*** VESSELS ***

A few explanations may help in using the VESSELS list. All craft named in the text have been included, with the page number of each reference. For uniformity's sake, the system of alphabetizing used in previous Steamboat Bill indexes (and formerly in Merchant Vessels of the United States) has been retained in preference to the system now used in the latter publication.

Vessels are listed under every name which appears in the text. An additional listing is made of a vessel's original name, if one is known to SB but not mentioned in the text. All entries under original names list all subsequent names, and all page references to that vessel under any name. Entries under a subsequent name give the original name as cross reference, but list page numbers only where the subsequent name is mentioned.

The history of each vessel as given in the pages of SB has been accepted for indexing purposes. Previous volumes of SB have been checked, but no additional research outside of SB has been attempted. We hasten to add that neither your Editorial Board nor SB contributors are infallible. Members finding an error in vessel identification or history are requested to write details to James Wilson, 414 Pelton Ave. Staten Island 10, N.Y.

Names such as COLONEL-, GENERAL-, ROBERT-, WILLIAM-, are either spelled out or abbreviated in the same way that the name actually appears on the vessel's name boards, to the best of our knowledge.

No attempt at detailed identification has been made, except where more than one vessel of the same name appears in this index; or where identity (or non-identity) of a like-named vessel in a previous volume of SB must be shown. In such cases craft are distinguished (1) by official numbers, if known, (2) by building dates, if no number is known, or (3) by more general dating, or geographic location, if neither (1) nor (2) is available. Where a ship bore both a U.S. and a foreign official number, the number appropriate to the name listed is given.

Modern U.S. Navy vessels, and merchant ships taken into military service are identified by class symbol and serial number, if known. Thus: BETELGEUSE (AKA11). Older vessels and those whose numbers are unknown are designated USS. Similarly, USCG - Coast Guard; USLHS - Lighthouse Service; GSS - Confederate Navy; HMS - British Navy; HMCS - Canadian Navy; and so on.

The following abbreviations and symbols are also used in the VESSELS list:

a, b, c, etc., before name, indicates sequence of names for same vessel, a earliest.
B before number, indicates British official no.
blt. before date, indicates building date.
C before number, indicates Canadian official no.
c. before date, indicates approximation (circa).

s. before date indicates time vessel was in service.
* before page number indicates illustration.
Underlining indicates a correction of spelling or other error in the text.
Unprefixed numerals, usually of six digits, are U.S. official numbers.
